# A little about Cherry Forge®

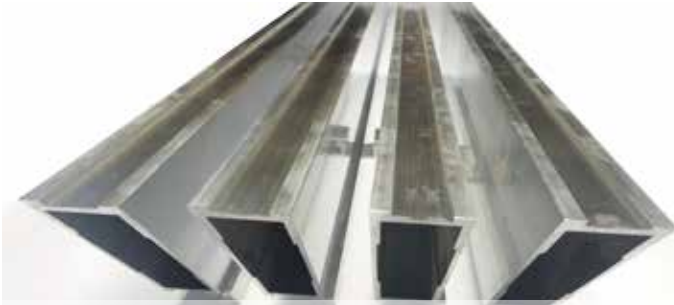

We are very proud to be a family owned company that manufactures all of our products in Arizona. All of the raw materials are sourced from companies who produce them within the United States, keeping us confident in the quality of the materials and supply.

Our doors bring a new perspective to the market. Because all of our doors are made from high strength Aluminum, we are able to utilize custom, complex shapes which allow us to engineer doors that are seamless and compact, without losing any of the features expected in custom ornamental doors. This also makes them impervious to the elements, eliminating the corrosion concerns that come with iron doors. We have over 30 years of experience in the industry and have used that knowledge to engineer a product that far exceeds anything else on the market. We set out to manufacture a product that you buy for life!

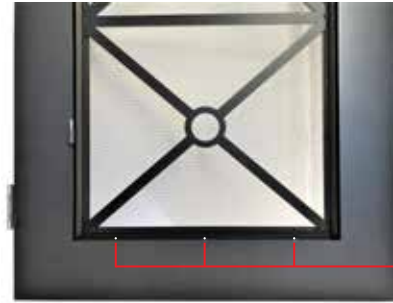

*"The craftsmanship & attention to detail Cherry Forge is able to produce is stunning!!"*

~ Christian Orsted

## What makes our doors unique?

Heavy contoured, all Aluminum, Door shell, Design & Glass frame.

weep holes

Engineered water weeping system integrated into the hinged glass to channel water away from home.

Flush fitting operable glass that is energy efficient dual pane. Glass seals evenly into door against commercial grade gasket.

Fiberglass insect screen to keep out the critters when using operable glass to ventilate.

Completely solid and durable design work. All welds are polished down for a flawless smooth finish.

High quality Euro style bolt latches that secure the operable glass to the door. Single sided for a super clean look.

# Grand Entryways & Mini Grands

**GRAND ENTRYWAYS:** are the total package. A Grand entryway consists of a door unit like the Mini Grand, but comes with a fully fabricated jamb. This is meant to totally replace your door, jamb and both interior & exterior trim. Your front entrance will be removed back to the original framing which will then be fitted with the new jamb and door. This option is excellent for those who want to totally get away from any wood components making up the front entrance to their home. This option also allows for choosing Custom pull handles.

**MINI GRANDS:** are a complete door unit less the outer jamb. Mini Grands are built to fit into your existing jamb. The hinges are mounted on the Mini Grand in the same location as your existing door hinges. The lock and lever are also slotted at the same heights as your existing door. Your door will be removed from the existing house jamb and the Mini Grand will be installed into its place. This will provide all of the benefits of a full Grand Entry at a more cost effective price point.

## *Choosing a Grand Entryway or Mini Grand?*

Grand Entryway: both door jamb & door.

Mini Grand: Only door, jamb is NOT included.

## GRAND ENTRYWAYS

### 1 Confirm Door Size

We pre-manufacture 4 different Entry Door sizes.

Most homes have exterior doors that will fall within these 4 rough opening sizes in most scenarios. Currently we do not offer any custom sizes. Below will be a list of the *Rough* door sizes, along with the Actual O.d jamb dimensions of the Grand Entrys we currently manufacture.

#### *Rough Door Sizes:*

#### Actual O.d Jamb Dimensions:

- 3' wide x 7' Tall → 37-<sup>1</sup>/<sub>4</sub>" wide x 81-<sup>1</sup>/<sub>2</sub>" Tall
- 3' wide x 8' Tall → 37-<sup>1</sup>/<sub>4</sub>" wide x 97-<sup>1</sup>/<sub>2</sub>" Tall
- 42" wide x 8' Tall → 43-<sup>1</sup>/<sub>4</sub>" wide x 97-<sup>1</sup>/<sub>2</sub>" Tall
- 4' wide x 8' Tall → 49-<sup>1</sup>/<sub>4</sub>" wide x 97-<sup>1</sup>/<sub>2</sub>" Tall

### 2 Choose a Design

We currently have 10 different designs to choose from. All of which are available in the 4 different door sizes. The designs are made from high strength, corrosion resistant Aluminum. All designs are 3/8" thick and range from 3/4" wide up to 1-1/2" wide, providing both strength and durability with an elegant appeal.

### 3 Choose a Color (see page 3)

All of our doors are put through a pre-wash process and then Powder Coated in your choice of 7 different colors. Really this is all about the color and less about the protection the coating provides. Because our doors are completely made from high strength, corrosion resistant Aluminum, there will never be the issues most endure with their iron products rusting out over time. You will be able to enjoy your investment for a life time!

### 4 Choose a Glass Style (see page 3)

Each door comes equipped with insulated, dual pane, tempered glass. We have 9 different styles to choose from. The glass is secured in a separate frame that is hinged on to the door. The glass frame sits down flush inside the door creating a sleek clean look. The glass frame is operable with an insect screen attached inside the door frame. You will be able to open your glass panel and enjoy the convenience of ventilation without the intrusion of any critters. The panel latches back into the door with 2 high quality, low profile latch bolts and seals against durable commercial grade gaskets.

### 5 Choose Handle Style (see page 4)

The last step is choosing a Custom Pull style. There are 10 different styles. The length of the Pulls will depend on the height of the door. All 7' tall doors get handles that are approximately 14" tall plus or minus. All 8' tall doors get handles that are approximately 18" tall plus or minus. They will already be pre drilled, tapped and positioned for a quick and easy install using the supplied allen head machine screws.

*That's it!*

# Close up? Sure, have a look!

Door to jamb supported by two aluminum hinges with stainless steel pins

Attached interior trim to eliminate any sheet rock finishing or repair

Commercial grade adjustable roller latch

Door shell is roughly 6" wide by 1-3/4" thick & mortise grooved for lock and lever plungers

2-3/8" backset to fit all conventional locks and levers, including digital keypads

Choice of custom pull handle (#5 shown)

Commercial grade adjustable roller latch

Insect screen in between design and glass for worry free ventilating

**Lbs.** (without door or glass)

Jamb weight per size +/-	
• 3' x 7'	→ 41 lbs.
• 3' x 8'	→ 46 lbs.
• 42" x 8'	→ 48 lbs.
• 4' x 8'	→ 50 lbs.

**Lbs.** (Complete Unit)

Final weight per size +/-	
• 3' x 7'	→ 170 lbs.
• 3' x 8'	→ 195 lbs.
• 42" x 8'	→ 225 lbs.
• 4' x 8'	→ 250 lbs.

\*weight varies depending on design, This is an average weight for the 10 different designs.

## Exterior & interior trim coverage

Door Size	Exterior O.d trim Width	Exterior trim O.d Height
3' X 7'	44 1/2"	85 1/8"
3' X 8'	44 1/2"	101 1/8"
3 1/2 X 8'	50 1/2"	101 1/8"
4' X 8'	56 1/2"	101 1/8"

Door Size	Interior O.d trim Width	Interior trim O.d Height
3' X 7'	42 1/2"	84 1/8"
3' X 8'	42 1/2"	100 1/8"
3 1/2 X 8'	48 1/2"	100 1/8"
4' X 8'	54 1/2"	100 1/8"

## MINI GRANDS

### 1 Confirm Door Size

We pre-manufacture 4 different door sizes.

Most homes have exterior doors that will fall within these 4 sizes in most scenarios. Currently we do not offer any custom sizes. Below will be a list of the *Rough* door sizes, along with the Actual dimensions of the doors we currently manufacture.

#### *Rough Door Sizes:*

#### Actual Door Dimensions:

- 3' wide x 7' Tall → 35-<sup>3</sup>/<sub>4</sub>" wide x 79" Tall
- 3' wide x 8' Tall → 35-<sup>3</sup>/<sub>4</sub>" wide x 95" Tall
- 42" wide x 8' Tall → 41-<sup>3</sup>/<sub>4</sub>" wide x 95" Tall
- 4' wide x 8' Tall → 47-<sup>3</sup>/<sub>4</sub>" wide x 95" Tall

### 2 Choose a Design

We currently have 10 different designs to choose from. All of which are available in the 4 different door sizes. The designs are made from high strength, corrosion resistant Aluminum. All designs are 3/8" thick and range from 3/4" wide up to 1-1/2" wide, providing both strength and durability with an elegant appeal.

### 3 Choose a Color (see page 3)

All of our doors are put through a pre-wash process and then Powder Coated in your choice of 7 different colors. Really this is all about the color and less about the protection the coating provides. Because our doors are completely made from high strength, corrosion resistant Aluminum, there will never be the issues most endure with their iron products rusting out over time. You will be able to enjoy your investment for a life time!

### 4 Choose a Glass Style (see page 3)

Each door comes equipped with insulated, dual pane, tempered glass. We have 9 different styles to choose from. The glass is secured in a separate frame that is hinged on to the door. The glass frame sits down flush inside the door creating a sleek clean look. The glass frame is operable with an insect screen attached inside the door frame. You will be able to open your glass panel and enjoy the convenience of ventilation without the intrusion of any critters. The panel latches back into the door with 2 high quality, low profile latch bolts and seals against durable commercial grade gaskets.

### 5 Choose Hinge Finish

The last step, a simple one. Choosing the desired finish for your hinges. We have two options. A Satin Nickel and a Dark Bronze. These will be supplied with the new door. They will already be pre drilled, tapped and positioned to land right back in the hinge mortises that already exist in your door jamb.

*That's it!*

# Close up? Sure, have a look!

**Lbs.**  
(without glass)

Install weight per size +/-
